

Examination of Hyndburn's Development Management Development Plan Document (DM DPD)

Council's Response to Inspector's Matters, Issues and Questions (MIQs)

Any other matters

Further to the matters raised by the Inspector, the Council wishes to put forward a number of additional proposed changes. These are changes that the Council does not consider directly relate to any representation received or MIQ raised by the Inspector, but that have arisen following Submission of the DM DPD to PINS in January 2017.

The Council previously submitted a list of 'Council proposed changes' alongside the Submission documents for the DM DPD. These were submitted as document reference DM_Sub3.2, and incorporated Change References HBC_1 through to HBC_18. The Council is now providing a further list of 'Council proposed changes' which it refers to as Change References HBC_19 to HBC_29. These will be supplied as document reference DM_Sub3.2a. In light of the Inspector's questions of the status of previously proposed modifications in the MIQs (i.e. whether the Council considers them to be 'main' or 'additional' modifications), the Council has indicated its view of the status of modifications presented in this further list.

In addition, to help clarify the impact of all the cumulative changes now proposed from a number of different sources (DM_Sub3.1, DM_Sub3.2, DM_Sub3.2a, response to Inspector's Initial Questions, and response to Inspector's MIQs), the Council will supply a tracked changes version of the Reg19 Publication Plan in support of its response to the MIQ's. This will be provided as submission document ref DM_Sub1.1a.
