Annual Pest Control Agreements

Are you looking for a fresh approach to pest control? Don't wait until you've got a problem - take out an annual monitoring agreement with us.

Each pest control agreement is tailored to the individual needs of our clients. We find a personalised interaction between client and contractor offers peace of mind to eradicate pest control problems in accordance with the principles of Integrated Pest Management (IPM).

These consist of a number of programmed visits covering a range of rats, mice, squirrels, moles and a wide range of insects, plus interim call-outs as required. There are no hidden extras within the agreements and our prices are highly competitive.

Our Annual contracts can include:

- *Detailed inspection of premises and identification of pests*
- *Provision and inspection of tamper resistant rodent and insect monitoring stations*
- *Whitten report sheets, highlighting any recommendations on housing keeping, proofing issues and compliance for food safety visits*
- *Pest proofing measures undertaken*
- *CCTV drainage camera surveys*
- *Infra-red camera monitoring systems*
- *Pesticide free solutions to your*
- *programmed visits*
- *Servicing of electrical fly killers*
- *Fly screens fitting on doors and windows*
- *Infection control treatment*
- *Fully insured and comply to all current legislation*
